CELL COVERAGE UPDATE

Council has been working aggressively on a viable solution to this issue since 2013. Two solutions have been close to fruition over the past several years only to be cancelled at the last minute due to matters out of Councils Control. An application process submitted in the fall of 2018, along with meetings with provincial Ministers and federal MP's will hopefully lead to a viable solution in the near future. We should know the final outcome soon. Once Council has been informed, the town will be informed as well.
